

# nicholas bridgemohan

SENIOR DEVELOPER

## PROFILE

I am a highly skilled and experienced full-stack developer with a strong background in technologies using Javascript, PHP and Java and constantly in pursuit of learning more.

I have exposure to various industries and carry a have a deep understanding of API management, DevOps (Azure), SQL and NoSQL DBMS. I am an advocate for agile methodologies for rapid development and swift delivery of solutions.

In one of my past roles at Guardian Group, I had the opportunity to spearhead backend development for the myGGOnline platform which has launched successfully and disrupted the regional insurance industry digital presence.

I am continuously pursuing career growth and excited to learn and develop new and upcoming technologies, in the pursuit of organizational excellence within my team and my workplace.
